

Damage May Affect Property Assessment

Property owners who have sustained damage to their improved real property this year and will not have it repaired by November 1, 2019, may report this damage to the Yankton County Director of Equalization Office and request a review of your property's assessed value.

The Equalization Office does not receive information from FEMA or your property insurance company so we need to hear from you---the property owner. If your property has significant, unrepaired damage, please contact the Equalization Office by November 1, 2019.

You may reach the Equalization office by phone: (605) 260-4485 option 3, mail: 321 West 3rd St Suite 203, Yankton SD 57078, or stop in and see us on the second floor (above the Treasurer) of the County Government Center 321 West 3 Street between 9:00 am – 5:00 pm, Monday through Friday.
