

Permit Costs

Building Permits are only reviewed and issued on Tuesdays at 8 am with the review committee (unless it falls on a holiday).

So, if you were to fill out a building permit application on a Wednesday it wouldn't be reviewed and issued until the following Tuesday.

Building Permit fees are calculated by our cost chart and start at \$50 and are based on the total value of the project (labor and materials).

So, if you have a total value cost of \$200,000.00 your permit would cost \$248.00.

If you have a total value cost of \$55,000.00 your permit would cost \$103.00.

*Building Permits are doubled if caught starting a project without permit.

*Building Permit fees are waived for tax exempt structures.
